# A Sweet Story

Founded in 1964 through the entrepreneurial initiative of brothers Luigi and Roberto Vanin, La Cialcon has rapidly grown into a company with a production capacity exceeding 1,500,000 treats per day.

Spread over a covered area of approximately 6,000 square meters, La Cialcon currently employs more than 30 specialized technicians who work with state-of-the-art machinery to meet the highest quality standards.

The pursuit of excellence, supported by continuous investment, is the cornerstone of this company, along with its ability to provide customers with efficient and timely service.

With La Cialcon, goodness never ends.

## Only with Olive Oil

Our commitment to product quality and constant innovation has led us to create a line that meets market demand for a product with exceptionally high standards.

Following this vision, we developed the “Only with Olive Oil” recipe: an unmatched combination of flavor and crispness. This line of cones and wafers, made exclusively with olive oil, uses only the finest raw materials. It contains no palm oil, animal fats, or ingredients of animal origin, perfectly catering to consumers who seek high-quality products, enhanced by the assurance of being vegan-friendly.

GRANELLA DI CIALDA

# Customised

# Customised BISCOTUO

BiscoTuo is a round, sweet wafer (Biscotondo) on which your company logo, a name, a slogan, an image, or anything else you wish can be printed using edible food-grade ink.

The printed design appears in a lovely chocolate-brown color, which can be adjusted in intensity to create various visual effects: from subtly visible to deeply pronounced.

# GUIDE to getting your personalized BiscoTuo

BiscoTuo is not only a delicious decoration to add to your gelato but also an effective way to promote your gelateria. We can customize this product in many ways, such as printing your logo or your preferred design, quickly and easily.

To achieve the best result, please keep the following guidelines in mind:

- The print will be made in a single color using cocoa-colored food-grade ink. Your logo will be placed inside a circle. Please note that, to ensure high-quality printing, a blank margin must be left around the logo.
- We will need the file to be provided in high resolution (300 dpi) or vector format.

Our graphic design team will create a draft of the print based on your instructions and adjust it to achieve the best possible result. Once the draft is ready, it will be sent to you for approval. Please remember that, as part of our quality procedure, your signature is essential to proceed with the printing phase.

The minimum order quantity is 16,000 pieces.

**MULTI-DESIGN PRINTING:** It is possible to create prints with multiple designs alternated within the same box, with up to eight different designs.

# Customised CONES WITH CUSTOMISED PAPER HOLDER

The custom double-wrapped cones, with a paper under-cone, ensure maximum hygiene, guaranteeing that the cone is touched only by the end customer. This detail, combined with the possibility of customization with graphics, text, or images, turns the product into an elegant marketing tool. An ideal solution to communicate your brand's identity and stand out with style and professionalism.

# GUIDE to getting your customised paper holder

For the entire range of double-wrapped cones, we can create custom paper holder with your design, which will then be paired directly during production, so they can be used immediately upon opening the box. We can print graphics of any type, up to full-color (four-color process).

To achieve the best result, please keep the following guidelines in mind:

- The minimum order is 15,000 pieces for single-color printing, 30,000 pieces for two-color printing, and 60,000 pieces for four-color printing.
- To create the draft, we will need the file to be printed in high resolution (300 dpi). If you don't have a ready-made file, you can still proceed with simple instructions on how to create your design.

Our graphic design team will prepare the print draft, which will be adjusted to achieve the best result. Once the draft is ready, it will be sent to you for review, and once it's finalized, it must be confirmed by you with a signed copy for approval. Our quality procedure requires this last step to proceed with printing.

Once the draft is approved, the paper holders will arrive at our warehouse in about 5 weeks, and we will be ready to go into production with the double-wrapped cones paired with your custom paper holder. Production can be completed in one batch or in multiple partial lots.

LA CIALCON  
dal 1964

# Cocoa cone

The La Cialcon cone with a wafer enriched with cocoa powder offers a unique experience, adding an intense and aromatic touch to your gelato. This specialty is ideal for chocolate lovers who seek quality and flavor in every last crumb.
